

VEXRAY

POWERED BY FORUM ANALYTICS

RETAIL AND RESTAURANT PROPERTY LISTINGS BROUGHT STRAIGHT TO YOUR DESKTOP IN REAL-TIME

Tired of non-stop emails and phone calls from real estate brokers convinced they have the perfect site for your concept? VEXRAY automatically eliminates unqualified sites and identifies the best using over 150 demographic, business, site attribute, and market factors YOU control.

VEXRAY is a patent pending engine ready for your website today. Here's how it works:

VEXRAY also allows you to:

- View listings on a custom Google GIS complete with all your business and market data.
- Generate USPS-based current and 5-year demographic reports with one click.
- Save photos and property collateral for every site.
- Integrate a sales forecasting model or cannibalization routine for advanced filtering.
- Seamlessly integrate the real estate process across your entire organization.
